MacGen's industrial range has been designed to ensure the highest performance in any application. It can be used to supply energy continuously, for peak shavings or in an emergency, within the industrial, commercial and residential sectors.

→ GENERATOR SET FEATURES

Engine

- Diesel engine
- 4-stroke cycle
- Water-cooled
- 12V electrical system
- Radiator with blower fan
- Water separator filter (visible level)
- Mechanical governor
- Dry air filter
- Hot parts protection
- Moving parts protection

Alternator

- Self-excited and self-regulated
- IP23 protection
- H class insulation

Electrical System

- Electric control and power panel with measurements devices and control unit
- 4-pole thermal magnetic circuit breaker
- Adjustable earth leakage protection standard with thermal magnetic protection
- Battery charger
- Heating resistor
- Battery charger alternator with ground connection
- Starter battery/ies installed
- Ground connection electrical installation with connection ready for ground spike (not supplied)

→ ADDITIONAL OPTIONS

- Auto start packages
 - Synchronised options (Gen to Gen / Gen to Mains)
 - Heavy duty lift & drag skids
 - Dual & multi-voltage socket packs
 - 3-way fuel bulk tank kit
 - High capacity fuel tank
 - Fast tow trailer unit
 - Water fuel pre-filters
 - Switchable dual frequency
 - Remote monitoring & control systems
 - Water jacket heater
 - Battery trickle charger
 - Programmable timer
 - Low water level sensor
 - Marine grade alternators
 - PMG on alternators
 - Customised canopy colours
- Many more options available on request
